

Deer Hollow Farm LLC is a full service mare care facility. We offer foaling, breeding and boarding services to our clients. We accommodate foaling mares with large, roomy stalls and utilize the Foalert system to help ensure a safe, attended delivery. Daily turnout in private paddocks is available for the mare and foal before introducing them to a pasture environment. Professional foal pictures are available courtesy of Rusty Spur Graphics and Jackie Wolfe to the mare owner. Mares are carefully watched and followed throughout their breeding cycle in order to best calculate ovulation and semen shipment. We will coordinate with the farm standing your selected stallion to have the semen shipped in a timely manner. Mares may stay at the farm for foaling and or breeding, and year round mare care is available.

Lay ups are always welcome at Deer Hollow Farm. We provide expert care for your horse while at our facility, and will update you and your veterinarian with progress reports and pictures via email. A certified equine massage therapist can come to the farm to help either the lay up horse or broodmare and foal. When a traumatic injury occurs to your horse, whether a wound, eye injury, lameness, abscess or other, Deer Hollow Farm will give your horse the best chance for a full recovery.

Arrival Requirements for all mares arriving at Deer Hollow Farm LLC:

All mares arriving at Deer Hollow Farm LLC must meet the following requirements prior to arrival at the farm. Any mare who cannot meet all the requirements will not be allowed to unload from the trailer.

- ✓ Deer Hollow Farm LLC Pertinent_Mare_Information_Form completely filled out, and sent to Deer Hollow Farm at least 5 days prior to arrival of mare. This will aid us in preparing for your mare's arrival to the farm.
- ✓ Deer Hollow Farm LLC Boarding/Breeding Contract completed
- ✓ Copy of Mare's Papers (front & back)
- ✓ Copy of Stallion Breeding Contract with contact numbers
- ✓ Negative Coggins test within the last 12 months
- ✓ Current Health Certificate within the last 30 days
- ✓ List of current vaccinations and dates given. All vaccinations must be administered at least 14 days prior to arrival on farm. Deer Hollow Farm LLC requires the following vaccinations: Eastern/Western Encephalitis, Tetanus, Influenza, Rhinopneumonitis, West Nile, and Streptococcus Equi (Strangles). We do recommend following the AAEP vaccination guidelines.
- ✓ Dewormed within 30 days of arrival.
- ✓ Negative uterine culture for all maiden and barren mares. (Can be done on farm, and client will be billed)
- ✓ Mares should be in general good health and body score upon arrival.
- ✓ Mare owner is required to meet all stallion breeding farm requirements and have all fees paid to that farm prior to any shipped semen requests.
